Re 17-108

DOCKET FILE COPY ORIGINAL

Dear Secretary Dortch:

I oppose the repeal of the Net neutrality rules.

When I am online, I want a free and open internet to aid in my searches and education. I don't want any business to set up a "fast" or "slow" lane, to assign some kind of priority of importance to that for which I search. That is my decision to make, not someone else's.

The FCC should stay away from censorship of my freedom to access the internet. A repeal of the Net neutrality rules reminds me of the burning of books during the rule of the Nazis.

Respectfully,

Enid Burgess
